

Create the Museum of You!

Part 4: Build your Museum

Museums are places that tell stories. Sometimes there are objects inside and sometimes they are outside. Use these activities to help you put the finishing touches on your museum. What do you want the entrance to look like? Where will you build your museum?

Where will you put your museum?

Me Museum © Compendium, 2017

- Create a special space outside! Use twigs and rocks to line the ground and create rooms in your museum.
- Build a blanket fort inside! Use chairs, sheets and even your bed. It could make your museum feel very cozy.
- Turn your bedroom into a museum about you! Think about what you want people to see first. You can even decorate your door and make a special entryway.

What else can I make for my museum?

- Tickets! What will people pay you for entry to your museum? A piece of gum, a sticker, a quarter or a drawing of you?
- Create a shop for your museum! People will want souvenirs to remember their special time learning all about you.
- Write a script and perform a show in your museum's movie theatre. The show can be about your best day ever or even an imaginary trip you might take.

Have fun and do it all again! Share your collections with @capjewishmuseum or with me via email: sfry@capitaljewishmuseum.org. Come back next week for the next step in creating your own museum!
